P-606

Dear Kimberly Bose,

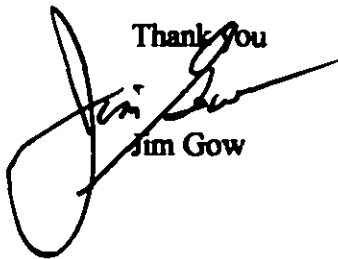

We would like to express our concern regarding the closure of Kilarc Reservoir.

It has been an important facility for family recreation in our area. We have used this area for fishing and picnicking ever since we moved to northern California.

It is a great source for wildlife and would truly be a great loss. In these times it is wonderful to have such a facility close to home.

Please consider our request to keep Kilarc as a great resource for the area.

Thank you

Jim Gow
