Re: Decommissioning of Kilarc

I am totally against the decommissioning of Kilarc By PG&E for all the reasons published in the Ridge Rider News, Vol. 23 January 19, 2009.

This move by PG&E I consider reprehensible and a move that is a strike against the people of the County of Shasta and surrounding areas.

This move should be revoked and another license issued to other interests in this area.
