Regarding Kilarc-Cow Creek Project (Ferc 606)

We are still outraged that PG&E chooses to ignore public request to let the facilities be purchased by Davis Hydro.

When a place is no longer useful to them, they shouldn't care who or why someone else wants it and sell and walk away.

Please help us and the community to save a great place for the future generation to enjoy all that we have enjoyed.

Thank you

Earl Wetmore
